Oratory filled San Antonio hall last evening when a mass meeting of Portuguese was held under the auspices of the Portuguese Political Club. As a result at the close of the speechmaking young Portuguese voters came forward in squads and placed their names upon the roll of the club. Nearly three hundred Portuguese men were in the hall, and their approval of the speeches was demonstrated by enthusiastic applause.

President Camara announced that on Saturday evening a meeting of the club would be held to nominate candidates whose names would be voted upon next Wednesday night, the one receiving the highest number of votes to be the candidate of the Portuguese colony for legislative honors.

Tomorrow evening's meeting promises to be one of the most important in which the Portuguese have ever participated, it being understood that of the numerous candidates for honors, the battle may narrow down to two of the most popular young men in the col-

The meeting was called to order by the president, who called the speakers. Messrs, M. A. Silva, Frank Andrade, J. M. Vivas, M. C. Pacheco, J. F. Durao, and M. A. Gonsalves, to the platform.

All the speakers urged the Portuguese to leave petty jealousies and bickerings out of the campaign and Territory of Hawaii.

It was a representative gathering of cosmopolitan population, and the leading men and women, irrespective of creed and affiliation, in the throng which filled the hotel durng the evening. Every clergyman of the city was there and in addition men prominent in business and political life gave the evening to meeting friends and showing their appreciation of the coming of a new head of the church, whose popularity was attested by the scores of old friends who were among the

guests. The hotel was beautifully and tastegully decorated for the occasion, and the reception pariors and the lanais were transformed into bowers of greenery, by the festooning of vines and leis, the touch of color being added by the draping of large American flags on the lanals. The Waikik, lanal was the one on which the greatest amount of work was done and the effects were tropical and lent to the music and the bright gowns of the ladies an air of the senuous delights of the islands, which appealed with directness of the visitors

PAY JURIES

Legality of Court Questioned by Dole.

The Supreme Court sitting in special ession yesterday considered the appeal of Judge Humphreys from the decision of Auditor Austin in refusing to allow the judiciary department to draw from the general expense the sum of \$5,040

Several questions not down on the program developed during the hearing. The first was the constitutionality of were crowded by those who grathered which if upheld, declared Judge Hum-to formally welcome the churchman, phreys, would invalidate every chamber order made by a circuit judge and every act of the district magistrates. A second question was the legality of the balliff act itself which was followed by a declaration that if the contention of Judge Humphreys is true the legis-lature had provided a limitless appropriation for court bailiffs.

Interest was added to the argument by the sudden and unexpected appearance of Judge Gear in the matter, who, after two vain attempts to interrupt the argument of the Attorney General, finally stated that he disagreed entirely with his colleagues on the bench and thought the payment of the bailiffs had been legal. He also declared the action of the Supreme Court to be illegal, and his attitude in the entire matter, and his opposition to the first and third judges caused somewhat of a sensa-

Judge Humphreys in opening the case said that he felt some doubt as to his right to appear, in view of the statute which prohibited circuit judges from practicing. He based his appearance as counsel upon the right of every man to appear in court in person, and as he was the appellant in the case he thought he should be heard. "This is not a case in which the court can be represented by amicus curae, and I do not feel like asking a member of the bar to act gratitutiously, my personal interest in the matter is so slight as not to justify an expenditure out of my own pocket for counsel."

that he did not appeal in accordance government, but simply as a person aggrieved at the action of the auditor. He then called attention to the report of Chief Justice Frear for 1990, saying that this showed that he had not contemplated that bailiff's pay should come out of the general expense approtion there were such contributions to provision for ballift of the guarantees the entertainment as productions to provision for ballift of the guarantees the contributions to provision for ballift of the guarantees as productions to provision for ballift of the guarantees as productions to provision for ballift of the guarantees as productions to provision for ballift of the guarantees as productions as productions to provision for ballift of the guarantees as productions as productions as productions are provided to the second fluous and in no way invalidated the bailiff act. That this made no difference he illustrated by showing that the organic act had provided that the High Sheriff and Attorney General were two distinct officers, and yet the legislature had placed the High Sheriff in the Attorney General's department, and he was paid out of that appropriation. The balliff act he said further did not limit the appropriation for bailiffs Soper, Miss Ward, Mrs. Herbert Mist, years but that the legislature had intended to so limit it. In response to a question from M. Smith counsel replied that the appropriation would date two years from the passage of the act on April 26, 1901. The title of the act itself, Judge Humphreys contended showed the intent of the legislature. This provided for the compensation and payment of balliffs, and even if the body of the act did not specify this more particularily it was contended that the title should be taken into consideration. This he argued was shown further by amendments to the bill offered by Robertson and Dickey in which it was sought to strike out the words in the title and Section 5 in the act, referring to the payment of the balliffs, as illustrative of the intent of the legislature.
"It has been held," continued the

It pleases the Delegate to say that these critics were wrong or biased; that his standing in Congress was such that he could have carried through certain bills if it had not been that he was "interfered" with by an unofficial delegate, meaning Pratt. But the fact remains that the bill which Mr. Pratt aided is the only one conferring any fiscal benefit on Hawaii which came any:

TALK FOR MOMEY TO **PAY JURIES**

(Continued from Page 1.)

for the payment of the bailiffs, which was not an authority, but a command. Mr. De Bolt asked what fund this should have been taken from and Judge Humphreys replied that the law did not require an apportionment of funds to the various departments and it might be taken from any money not other-wise appropriated to construe that the act did not provide for the payment of the balliffs he said would be an ab-surdity and the money could be taken from any money in the treasury.

Attorney General Dole began his argument with a statement that he had no wish to oppose the contention of Judge Humphreys if it was legal. He wanted to promote the public good and thought every department should work thought every department should work together, for what injured one department hurt every other branch of the government. "The pillika of the court is great," said Mr. Dole, "and the need of funds for the presecution of the court is extreme and if right and fair, and within the correct construction of the statute, I hope that Judge Humphreys contention will prevait. I did not advise the auditor to comply with the demand, for I deemed it a matter of great doubt and not safe for him to render himself personally responsible. The responsibility in cases of this kind should rest with the Supreme Court." Court."

Mr. Dole then called attention to the conference had with Gov. Dole and the unanimity of the opinion of judges that the present appeal to the Supreme Court was proper. Personally he had some doubts in the matter, referring to the provision of the organic act which said that justices may be called to sit on the Supreme Court in pending cases. He thought this question of jurisdiction a serious one. Judge Humphreys replied that if there was any such question it must be construed in favor of the appellant, as a constitutional question was involved.

tion was involved.

Referring to the bailiff act Mr. Dole stated that from time immemorial it had always been the custom of the legislature to appropriate certain sums for certain purposes. In this case no specific appropriation had been made, except my for the Supreme Court hailiff certain purposes. In this case no specific appropriation had been made, excepting for the Supreme Court bailiff in the salary appropriation. While recognizing the great need of the Judgelary department for a small sum of money yet if the bailiff act carried an appropriation, then the appropriation was made without limit. "It seems to me he said, "that the Circuit Courts, under that contention, have the right to appoint as many bailiffs as they see fit. While no judge would be suilty of such an abuse of power, yet Judge Humphreys or any other judge could appoint a thousand bailiffs. What was the limit in this matter, it seems to me that the limit came in making it payable out of the general expenses of Supreme and Circuit Court."

The attorney general cited his own department as an analogous case in that he was empowered to appoint as many deputies as he desired, but was limited by the lack of funds. "When this act passed the legislature, the contemporaneous construction put upon it was that the Supreme Court bailliff

or ar. Doie, attempted to interrupt several times without success, and finally when he got on his feet and began to talk, Judge Humphreys interrupted him with a request to the court that "I would be pleased to be allowed to finish my argument before the amicus curae herius" Judge Gear said that he wasn't ap-

pearing as amicus curae nor was he a party to the case at all. "I want to correct a statement as to the consultation we had with the governor. I claim the right as a matter of personal priv-flege. It was stated that the Circuit Judges were unanimous in regard to this matter, and I wish to state that as far as I am concerned, it is wrong. In the first place, I don't think this court has any jurisdiction, because I don't believe it to be constitutional. I don't think it consistent with the signing by myself of the orders upon the auditor for the bailins to be paid out of the appropriation for expenses of Supreme and Circuit Courts. I signed the orders and, I think, properly. I don't want it said that all three judges are making this contention. I don't appear as an I am not interested in this appear and I don't think Judge Humphreys is, either, and I want the court and the public to know it."

Mr. Smith asked several questions as to the legality of the sitting of the Su-preme Court to which Mr. Dole re-plied that the law required at least two justices to hear an appeal of this kind. "If the contention of the attorney general is correct," replied Judge Hum-phreys, "and is upheld, it will result in

general is correct," replied Judge Humphreys, "and is upheld, it will result in indescribable chaos. If there is a difference between judges and courts, the acts of Circuit Judges in chambers are null and void. If the contention is sound there are no district magistrates, and no equity power in Circuit Judges. The term justices includes any person who might become a legally qualified member of the Supreme Court: if this view is not correct, then I contend the justices, as such, constitute an inferior court created by the legislature. The attorney general says no one dreamed of my contention in regard to the bailiff act. I think I made it pretty clear that it did carry with it an appropriation. I never knew until ten or fifteen days ago that the bailiffs had been paid out of this appropriation, and I

NEW YORK, August 11.—George W. Clapperton, traffic manager for the Commercial Pacific Cable Company, Mr. De bolt asked Mr. Dole under what rule the balliffs should be paid out of the general expense fund, to which it was replied that they were a necessary expense of the Circuit Courts.

SOME ONE PLAYED A **GOOD JOKE**

The Joker was abroad yesterday, and former politician from New York City, who did 'politics in de kts district," was the victim. In opening up his mail yesterday morning he found a letter written on a Palace Hotel, San Francisco, letterhead, It was a long letter and bors an official-booking sighature, a scrawl only, but with a flourish of pen and ink which made an impression on the reader. The name could not be deciphered, but the typewritten title beneath indicated that it was the alleged signature of an attache of the Schatorial Commission, now on route to Henolulu.

The contents of the letter were to the effect that the commission had taken cognizance of a petition which had been forwarded to Washington several been forwarded to Washington several weeks ago, among the signers thereof being the receiver of the letter. It further stated that this individual had been selected by the commission to take charge of the reception arrangements in Honedulu and to arrange for hotel accommodations. The writer mentioned casually that a suite of apartments would be most acceptable. In a few minutes the New York politician, who is a somewhat aged man, was rushing about the streets, dodging

itician, who is a somewhat aged man, was rushing about the streets, dodging into various downtown business offices to notify the occupants of the high honor which had been thrust upon him. He hastened to a large hosterly at the beach, and became the guest of those in charge for a few hours. He arranged for the suite, had dinner on the house, and came back to town satisfied, In some way the hotel management ascertained later that it was all a hoax, and the arrangements were a hoax, and the arrangements were

a heax, and the acceptance quietly cancelled.

Whence came the letter and who was the author, is yet to be determined.

SILVERTOWN IS TAKING IN CABLE

The 2400 miles of deep sea cable which will connect Honolulu with the mainland are now being coiled into the tanks of the cable ship Silvertown, at the works of the company which is constructing the line. This information was given in a letter from S. S. Dickenson, received here yesterday. According to this letter, the advices of the sailing of the ship were expected not later than september 1st, which would mean that the cable would be in San Francisco within 60 days thereafter. Mr. Dickenson found that there was some difficulty in arranging for the elicular of the supplies needed for the local end of the line, such as the iron pipe which will be laid as the cable conveyor, owing to the coal strike, but this respect. There was yesterday among the friends of the former user a report that from conversations the members of the commission might.

SCHOOL GIRLS.

School girls are proverbially pretty. Fact is, it's a pretty when she has all the beauties of womanhood without the later lines of care and worry.

But here and there even among school girls appear pale drawn faces-a dullness and lack of freshness which tells a plain story of thin blood.

Now this is not right. But Scott's Emulsion can make it right. Scott's Emulsion is what these pale girls need. Scott's Emulsion brings back the beauty to their faces because it is blood food.

Cuba Wants a Loan

WASHINGTON, August 4.-The State Department has received the following cablegram from Minister Squiers, dated Havana, August 4: "The House has passed a bill authorizing a loan of \$35,000,000; minimum rate of issue 90 per cent; maximum interest 5 per cent; redeemable in forty years."

HAVE FOUND A WAY OUT

Money in Sight for the Circuit Courts.

(From Wednesday's Daily.)

As a result of a conference between the three circuit judges and Governor way has finally been dis-by which probably money will be obtained to carry on the courts at least until legislature meets. This is by paying back to the general expense fund, the amounts already paid to the bailiffs appointed under the Humphreys act and amounting to about \$4,500, leaving that sum to be used for the general expenses of the Supreme and Circuit Courts.

It is now claimed that the bailiff act as passed by the legislature intended that the bailiffs should be paid out of a special appropriation. Instead of that the salaries of bailiffs have all along been charged to the expense account and was one of the factors in the early depletion of that fund. There is now in the hands of the treasurer \$5,000 or \$6,000 collected by the district magistrates which might possibly be used for the payment of the bailiffs, there being n- special appropriation for the pur-

pose by the legislature.

A demand was made upon Auditor Austin yesterday for funds from the general expense account the fact of the alleged wrongful charge of bailiff salaries against that account being set out by the judges. The Auditor stated his willingness to comply with the request upon a court order, and it was agreed that the matter should be submitted to the Supreme Court for adjudication. This will probably be done today upon an agreed statement of facts between the Auditor, and possibly some citizen to whom money is owing from the court fund. One of the jurors will very likely be pressed into service for this matter, and an opinion requested at an early date. Justice Perry is the only member of the Supreme Court now in the Territory and he will have to call in two members of the bar to sit with him in the case.

The conference between Gov. Dole the morning the judges sent a letter to the Governor, which however was not in the clerk's office before ten o'clock yesterday morning-being in the following form:

"Honolulu, August 19, 1902.

The bailiffs under the Humphreys law have been paid since last May out of the expense appropriation. Previous to that time balliffs for the courts had been furnished from the High Sheriff's department and the expense was consequently not borne by the courts. There are two bailiffs in the first circuit, appointed by the judges, each of the stock Yards Company, torner of King and South streets, which was destroyed by fire on August 20, 1901, and in which the plaintiff claims to have incurred a loss of \$12,690.

"I don't know where the funds are coming from," said Judge Gear, "According to the Chief Justice it will take \$15,000 to \$17,000 for the next six months, and we haven't got that many cents, much less dollars. richest portion of the Island of Hawait.
It faces the new Government road ex-

its soil is well adapted to the growth

Occ. pants of this land have easy access to several ports for export, and with the advent of the Kona Railroad will find themselves in close commu nication with the thriving City of Hile. This, of couse, affords a splendid op-portunity for the exporting of farms products to the California markets. With the revival of the Kona Smar Co., considerable portions of this land can be successfully planted to sugar

This is one of the most splendid op-portunities for a good investment that has been put upon the market for a considerable period of time.
